Ms. Melissa Farrish
209 Phillips St.
Beckley, WV 25801

Dear Melissa:

I want to take this opportunity to formally thank you for your assistance with the online course, **CIEC 534 Applications Software in the Classroom Curriculum**, during the summer semester. Specifically, I appreciate the work you did to facilitate the multimedia presentations module in the course. You did an excellent job learning the content and evaluating the assignments that were submitted in addition to addressing student questions related to this module.

Please feel free to use this letter as documentation of co-teaching a graduate course within your doctoral portfolio, if needed.

Again, let me express my sincere thanks on behalf of myself and the students for the work you did in the course.

Sincerely,

Lisa A. Heaton
